

A clean copy of the amended claims

Claim 2

A composition according to claim 15 wherein said noble gas is argon.

Claim 3

A composition according to claim 15 wherein said microorganism is anthrax bacterium, *Bacillus anthracis*.

Claim 4

A composition according to claim 15 wherein said microorganism is Norwalk or Norwalk-like viruses.

Claim 5

A composition according to claim 15 wherein said microorganism is Severe Acute Respiratory Syndrome virus.

Claim 6

A composition according to claim 15 wherein said microorganism is *Legionellae*.

Claim 7

A composition according to claim 15 wherein said microorganism is mold and mold spores.

Claim 8

A composition according to claim 2 wherein said ratio of argon:chlorine in said mixture is 20:1.

Claim 9

A composition according to claim 2 wherein said chlorine is present in an amount of about 1.0 to 3%.

Claim 15

A composition effective against microorganism and other pest organisms comprising a dispersion of chlorine gas in a noble gas formed by mixing the gases directly before use wherein said chlorine is present in said dispersion in a ratio of 20:1 (argon:chlorine).
